Memória descritiva do trabalho/ **Work description:**

Para iniciar o projeto, os alunos imaginaram, desenharam e decoraram golfinhos numa folha. Escolheram-se vários elementos dos trabalhos, sobressaindo a estrela-do-mar e a areia da praia amarela. Com cartão, jornal, cola, tintas e areia fizeram-se as estrelas para as barbatanas e a alga para a cauda. Revestiu-se o golfinho com cola branca e jornal procedendo-se, depois, à pintura com tintas de guache. Os alunos contornaram o desenho com marcador preto e a professora envernizou o "Escaminhas".

This project began with the students' imagination, drawing and decorating dolphins on a paper sheet. Several elements were chosen from those works, standing out the starfish and the yellow beach sand. The starfishes on the fins and the seaweed on the fluke were made with cardboard, newspapers, glue, paint and sand. The dolphin was covered with white glue and newspaper strips, proceeding then to the painting with gouache ink. The children outlined the draw with a black marker and the teacher varnished the "Escaminhas."
